TECHNICAL INFORMATION

- Üretiminde cam elyafı hammaddesi kullanılmıştır.
- Bu katkı ürünün daha dayanıklı ve uzun ömürlü olmasını sağlar.
- UV Katkısı sayesinde güneşe karşı dayanıklıdır.
- Antistatik katkısı sayesinde elektrikleşme olmadığı için toz tutmaz.
- Camlı ürünlerde kullanılan camlar temperli cam olduğundan kırıldıklarında küçük ve keskin olmayan parçalara ayrılarak dağılırlar. Bundan dolayı yaralanma risklerini en aza indirir.
- Masa gövdelerinde 2mm özel üretim metal şase kullanılmıştır.

- Glass fibre raw materials are used in production.
- These additive ensures the product more resistant and long life.
- It is resistant to the sun thanks to UV additive.
- It doesn't keep dust due to there is not electrification thanks to the antistatic additive.
- Glass used in the glass product dispersed and divided into small not sharp pieces when they break since they are tempered glass. Hence it minimize injury risks.
- In table body 2mm special metal frame is used in production.

4 ayakta bulunan vidalar sayesinde bütün zeminlerde rahat kullanım

It can be used comfortable on all types of ground through 4 screws located on leg
